<b>Detailed explanation of why increasing the existing level of cooperation, collaboration and consolidation is not feasible:</b> Currently the Village of Clarksville either collaborates with other jurisdictions or uses a third party contractor for 80 - 90 % of the services budgeted and provided by the Village. It is not feasible for the Village to consolidate any more services as the cost savings if any would be minimal. Also, further consolidation of services is not geographically feasible due to the rural location of Clarksville. If the Village decides to provide additional services in the future, collaboration with the surrounding townships will be a top priority.
